Communication between home and school is absolutely essential. Keeping our school's database up-to-date is very important for establishing and maintaining a strong partnership centered on student success. E-mail is particularly important as we continue to expand its use. Throughout the year, we will have a great deal we want to tell you and we hope you feel welcome to share information with us about both your student and views about the operations of the school. Throughout the year, if any information changes, please call our main office staff at 773-534-8600 or email us at information@jonescollegeprep.org. Thank you.
